

Manish Nandwani

Frontend Developer (Javascript, React js)

Phone : 8955107800

Email : manishnandwani5055@gmail.com

EXPERIENCE

Publicis Sapient , Remote —

Senior Frontend Developer

OCT 2021 - PRESENT

1. Working with different teams, like designers, product managers, and fellow developers, to make great products.
2. Checking and giving helpful advice on other developers' code during reviews.
3. Notable achievements: I've worked on both server-side and client-side rendering with Next.js. I made queries faster with GraphQL, used the ATOMIC architecture, and managed state with the Context API. I also implemented the Micro Frontend approach.
4. Improved the accessibility, wrote tests for all the components of the app using jest and RTL, and made it faster by improving the code smell from sonarqube.

Ongraph Technologies, Jaipur Rajasthan —

Full Stack Developer

MARCH 2020 - PRESENT

1. Collaborated as a full-stack developer to create a MERN stack application for a fintech startup client. The application facilitates student loan services.
2. Key accomplishment : Successfully implemented a loan algorithm based on various parameters, boosted application performance, seamlessly integrated third-party APIs, and implemented Redux for efficient state management.

InfoObjects Inc, Jaipur Rajasthan —
Full Stack Developer

JAN 2019 - MARCH 2020

1. Creating and sustaining web applications with Angular and Node.js.
2. Notable aspects include incorporating Websockets, integrating REST APIs, implementing Facebook and Google authentication, connecting with Firebase, and utilizing AWS S3.
